1 General information

These interim financial statements cover Paradice Global Small Mid Cap Fund (the "Fund") as an individual entity. The Fund is an Australian registered managed investment scheme, was constituted on 16 June 2010 and will terminate in accordance with the Fund's Constitution or by Law.

The Responsible Entity of the Fund is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975) (the "Responsible Entity"). The Responsible Entity's registered office is Level 1, 575 Bourke Street, Melbourne, VIC 3000. These interim financial statements are presented in the Australian currency unless otherwise noted.

The Fund invests predominately in global small and mid-capitalisation companies (excluding Australian and New Zealand companies) that have a weighted average capitalisation of less than US\$5 billion, as well as cash. The Fund will continue to invest in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

On 5 May 2016, a new tax regime applying to Managed Investment Trusts ("MITs") was established under the *Tax Laws Amendment (New Tax System for Managed Investment Trusts) Act 2016.* The Attribution Managed Investment Trust ("AMIT") regime allows MITs that meet certain requirements to make an irrevocable choice to be an AMIT. In order to allow the Fund to elect into the AMIT tax regime, the Fund's Constitution has been amended and the other conditions to adopt the AMIT tax regime have been met effective 1 July 2017. The Responsible Entity is therefore no longer contractually obliged to pay distributions. Consequently the units in the Fund have been reclassified from a financial liability to equity on 1 July 2017, see Note 6 for further information.

The interim financial statements were authorised for issue by the directors on the date the Directors' declaration was signed. The directors of the Responsible Entity have the power to amend and reissue the interim financial statements.

2 Basis of preparation

These interim financial statements have been prepared in accordance with Australian Accounting Standards AASB 134 Interim Financial Reporting and the Corporations Act 2001. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS 34 Interim Financial Reporting.

These interim financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these interim financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2017 and any public announcements made in respect of the Fund during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

(a) Significant accounting policies

Except for the below, the accounting policies in these interim financial statements are the same as those applied to the Fund's financial statements for the year ended 30 June 2017.

(i) Net assets attributable to unit holders

Units are classified as equity when they satisfy the following criteria under AASB 132 *Financial Instruments: Presentation:*

- the puttable financial instrument entitles the holder to pro-rata share of net assets in the event of the Fund's liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Fund, and it is not a contract settled in the the Fund's own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life are based substantially on the profit or loss.

As at 30 June 2017, net assets attributable to unit holders are classified as a financial liability. Effective from 1 July 2017, the Fund's units have been reclassified from financial liability to equity as they satisfied all the above criteria.

(ii) Distributions

The Fund may distribute its distributable income, in accordance with the Fund's Constitution, to unit holders by cash or reinvestment. The distributions are recognised in the condensed statement of changes in equity.

3 Fair value measurement

The Fund measures and recognises financial assets and liabilities held at fair value through profit or loss on a recurring basis. The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 Fair Value Measurement requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(a) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets (such as listed equity securities and listed property trusts) are based on quoted market prices at the close of trading at the end of the reporting period without any deduction for estimated future selling costs.

For the majority of its investments, the Fund relies on information provided by independent pricing services for the valuation of its investments.

The quoted market price used for financial assets held by the Fund is the current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(b) Recognised fair value measurements

The table below presents the Fund's financial assets and liabilities measured and recognised at fair value as at 31 December 2017 and 30 June 2017.

As at 31 December 2017	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

3 Fair value measurement (continued)

(d) Transfers between levels

Management's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

The following table presents the transfers between levels at the end of the reporting period:

As at 31 December 2017	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000

As at 30 June 2017			
Transfers between levels 1 and 2:			
International listed equities securities	6,429	(6,429)	-

There were no other transfers between levels in the fair value hierarchy at the end of the reporting period.

(e) Financial instruments not carried at fair value

The carrying value of receivables and payables are assumed to approximate their fair values.

Net assets attributable to unit holders' carrying value differ from its fair value (deemed to be redemption price for individual units) due to differences in valuation inputs. This difference is not material in the current or prior reporting period.

4 Net gains/(losses) on financial instruments held at fair value through profit or loss

6 Net assets attributable to unit holders

Under AASB 132 Financial Instruments: Presentation, puttable financial instruments meet the definition of financial liability to be classified as equity where certain criteria are met. The Fund shall classify a financial instrument as an equity instrument from the date when the instrument has all the features and meets the conditions.

Prior to 1 July 2017, the Fund classified its net assets attributable to unit holders as liabilities in accordance with AASB 132. On 1 July 2017, the Fund has elected into the AMIT tax regime. The Fund's Constitution has been amended during the half-year and it no longer has a contractual obligation to pay distributions to unit holders. Therefore the net assets attributable to unit holders of the Fund meet the criteria set out under AASB 132 and are classified as equity from 1 July 2017 onwards.

As a result of the reclassification of net assets attributable to unit holders from liabilities to equity, the Fund's distributions are no longer classified as finance costs in the condensed statement of comprehensive income, but rather as dividends paid in the condensed statement of changes in equity.

Movements in the number of units and net assets attributable to unit holders during the half-year were as follows:

	Half-year ended		Half-year ended Half-year ende	
	31 December	31 December	31 December	31 December

*Net assets attributable to unit holders are classified as equity at 31 December 2017 and as financial liability at 30 June 2017. Refer to note 1 for further details.

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund.

There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Fund.
